R.D. Schuller Contractors

R.D. Schuller and Millard Lumber worked together to create this stunning Kitchen transformation. Before the project commenced, this Kitchen's style mirrored a typical 1980's look and design. Bland paint, aging stained cabinets, and linoleum flooring were no longer cutting it. The homeowner knew this and had been attending "Remodel Omaha Tours" in the past years for ideas and input. New granite tops, beautifully crafted cabinets, tile flooring, and an opening between the Kitchen and Family Room were added. The designers did an excellent job of taking the homeowner's vision and making it reality, so please enjoy!

MOBA MEMBER TRADE ASSOCIATES:

- City of Omaha Permits & Inspections
